

Red numbers represent the order in which the components should be installed.

Firebug assembly instructions for the Front of the board

Do not take this sheet,
please leave it on the table

R1, R3, R4 and R6
10 Ohm resistors

1

Resistors can go in either way round

R2 and R5
100 Ohm resistors

2

Resistors can go in either way round

LED's 1,3,4 and 6

3

1st Cobargo Scouts

LED's 2 and 5

4

Note - The Flat side with the short lead is the "-" lead and goes towards the middle of the board.

Get a leader to look at them before you solder them in.

They will not work if you put them in the wrong way round.

Please turn over the page for the Switch, and battery holder installation instructions.

V2- Jun 2023

Firebug assembly instructions

Do not take this sheet,
please leave it on the table

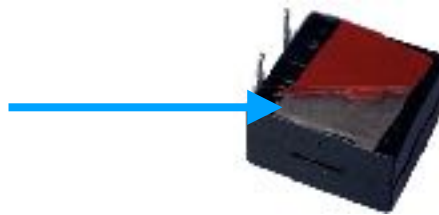

The Switch and battery Holder are installed on the rear of the Board

Switch

5

Take the red cover tape off the grey double sided tape before putting the switch into the board.

Ask your leader for the battery holder and get them to test your board 1st before soldering the battery holder in.

Battery holder

6

Take the cover tape off the double sided tape before putting the battery socket into the board.
